Extract from the proceedings of the meeting of the Governing Body held on 19.02.2024 in the chamber of the Principal at 12.00 Noon

✓ **Item No:8:**(a) The Principal informs that after publication of result for 1st, 3rd and 5th semester examinations of various sessions, some examinees of Katwa College have got 'NC' in different papers. He further informs that these examinees have been recorded as ABSENT in the Marks Capturing Portal inadvertently by concerned examiners. A detailed list of such examinees with plausible reason against each case is mentioned in the REMARKS column.

In this context, the Principal points to a particular case where a student named Kartick Majhi bearing Roll No. 200611210035 appeared in the 1st semester examination, 2020 in Physics General and obtained 37 marks out of 40 in theoretical part and 14 out of 20 in practical part. But during marks capturing, ABSENT was wrongly recorded in the practical part. Later, while sending marks of practical part through template, the marks of theoretical part has been posted as 32 in place of 37 due to clerical mistake. Considering the gravity of situation specially when the examinees themselves are not responsible for these mis-postings, the G.B. instructs the Principal to send the list with proper justification to the Controller of Examination, The University of Burdwan, for necessary action so that the examinees get proper justice (See annexure).

Resolution

S A meeting has been held on May 3, 2024, in the presence of the principal and all faculty members of the Philosophy Department in the principal's chamber. Question paper of internal assessment for 4th Semester Honours in Philosophy, paper: CC-8, Course Title: Western Logic-1 was set by Baishakhi Modak. There was only one question and no option. In this situation, no students were able to answer the question. They gave an application to the principal. They gave an application to the principal to solve the matter. As the matter is related to student careers, our department took this matter seriously. That's why we arranged a meeting with the principal along with the faculty members. After a prolonged discussion, it was decided that Baishakhi Modak (one of the faculty members of philosophy) would take the examination as early as possible with the new question paper, where at least four options were available. The exam date has been confirmed as 16th July, 2024.

REPORT ON MENTOR MENTEE SUB COMMITTEE

2019-24

A series of mentor- mentee subcommittee meetings were conducted for interpersonal and student enrichment purpose.

The Committee includes the Heads of the Department along with the Principal and the IQAC coordinator.

In the series of meetings, discussions and decisions were made regarding the mentoring process and the logic of mentor- mentee allotment for maximizing benefits.

A mentoring policy and the dos and the don'ts were formulated.

STUDENT MENTORING POLICY

In the context of higher education in Katwa College, mentoring may be recognized as a strategy required by the students to achieve learning goals with emotional and instrumental support. Thus, the student mentorship programme will incorporate the support of faculty members as "Mentors" to all the students in the college. Each student shall be assigned a "Mentor" to overcome their hurdles to achieve the goals desired by them in their academic career.

OBJECTIVES OF STUDENT MENTORING POLICY

The target of this Mentoring Programme is to identify fundamental mechanisms that will

1. Provide students with career and non-academic counselling.
2. Provide students with information on preparatory courses such as skill courses, Add On courses inside the institution and others where similar suitable programmes are offered for their academic prosperity.

3. Focus and motivate students to achieve learning goals and thereby improve their academic performance.
4. Guide, encourage, and advise the students about their upcoming student life, student health, mental and emotional well-being and listen to their issues with patience and help them solve their concerns with appropriate resources, support and referral available.
5. Generate curiosity and interest in academics and other institutional activities amongst the students.

ELEMENTS OF STUDENT MENTORING POLICY

The Student Mentoring programme will help identify

- Underachiever students.
- The mechanisms to aid under-achieved students.
- Realization of desired outcome post mentoring.

SCHEDULE OF MEETINGS

Mentors and student mentees will meet according to a pre-arranged calendar, as well as per need of the student or the moment. They will be introduced to each other in the first few weeks after admission. They are encouraged to meet socially periodically to build rapport within the team. Mentees are encouraged to initiate meetings with mentors.

RESPONSIBILITIES OF THE MENTOR

A mentor should don multiple hats.

The mentor should embrace the ability and willingness to

1. Coach to advise the mentees on how to accomplish their goals

2. Provide guidance and help to increase the mentee's exposure to new experiences.
3. Teach to provide learning opportunities.
4. Counsel to enhance the mentee's self-esteem through supportive, non-judgmental discussions.
5. Communicate through active listening. Focus fully on the mentee and show active verbal and non-verbal signs of listening.
6. Share experiences and be open to sharing mistakes, failures and lessons learned.

Maintain strict confidentiality of the information shared by the mentee.

8. Bear role model to walk the talk and exhibit the behaviours essential for success
9. If at any time, the mentor feels that the mentees need special counselling, the mentor may encourage the students to seek counselling with the professional expert - the Student Counsellor.
10. If any student needs special academic tutoring, the mentor may direct the mentees to an appropriate faculty and may even ask the faculty to help their mentees in a particular area.

MENTEE'S ROLES AND RESPONSIBILITIES

1. Mentee is responsible for initiating all contact with the mentor and should be prepared and punctual for the mentoring sessions.
2. Mentee is responsible for establishing the agenda for the conversation. The student might even email topics to the mentor ahead of time. At the beginning of each session, the mentee should provide a brief update on progress since the last conversation.
3. Mentee should share his/her ideas, concerns, and professional goals so that the mentor is able to place the situation in perspective.

॥ विद्यया विवृतेऽमृतम ॥

4. Mentee should establish a mutually agreeable plan for mentoring sessions. He/she should schedule the sessions on his/her calendar and build in enough time around the sessions to prepare. By ensuring that conversations start and end on time, the mentee will demonstrate respect and responsibility.

5. Mentee should focus on the relationship, rather than outcomes. Mentor's role is not to provide a job; it is to share valuable experience with the mentee.

6. Mentee should ask direct questions about what he/she most want to know and shouldn't be shy about asking. Mentee is responsible for ensuring, the conversation meets, his/her needs.

THE ETIQUETTE OF MENTORING DO'S AND DON'TS

There is an unspoken code of behavior that exists in mentoring relationships. Unfortunately, since it's unspoken, both participants in the mentoring relationship, unknowingly and unintentionally, may end up doing the "wrong thing." All individuals come to a new relationship with different styles of communication, different points of view and different expectations. Working in a new relationship with someone very different from you is a skill. As with any skill, the more you practice, the easier it gets. At the very minimum, relationship skills required for mentoring include, showing kindness, practicing patience and flexibility, and conveying a sense of appreciation for the individual's accomplishments. Following are some additional suggestions for mentors:

DO	DON'T
Respect your mentee's time as much as your own.	Assume that your schedule always has priority.
Be explicit about the "norms" for your meetings and your own needs and limits (e.g., time, style of interfacing, etc.).	Make your mentee guess or learn by trial and error about the ground rules for your meetings.
Always ask if you can make a suggestion or offer feedback.	Automatically give advice or criticism.
Tell your mentee that you don't expect them to follow all of your suggestions.	Assume your advice will be followed.
Expect your mentee to move toward his/her goals, not yours.	Expect a clone of yourself.
Express appreciation to any help your mentee gives you.	Take your mentee for granted or assume she/he doesn't need positive reinforcement.
Keep the relationship on a professional basis.	Move too quickly into a personal friendship, if at all.
Recognize and work through conflicts in a respectful way; invite discussions of differences.	Avoid discussion of inappropriate subjects and forcing your solutions in conflicts.
Keep the door open for your mentee to contact you in the future—if that is your wish.	End the relationship on a sour note.
