End Course Evaluation: All four skills will be evaluated, each on 25 marks. Total marks of the final exam will be out of 100. Corresponding grades will be given to the students along with the marks for their certificates.

Outcome of the course: After 30 hours of French learning, students have learnt to speak basic French used in daily life to buy stationery items or garments at a departmental store or speak about themselves and their families. They can also understand basic announcements in French (e.g. in a railway station) or enquiries about their personal life. They can read and comprehend basic texts (e.g. post cards) in French in present tense. Finally, they can fill up all types of forms, write about their family members and friends and send invitations to their friends. Overall, the course has boosted the confidence of the students with regard to the foreign language learning skills and hopefully it will stimulate them to further sharpen their skills in this language for more career options or venture in picking up other foreign languages.

## Report on আবৃত্তি শিক্ষা, 2023-24

কাটোয়াকলেজের অধ্যক্ষের উৎসাহে এবং আইকিউএসিও বাংলা বিভাগের যৌথ উদ্যোগে আবৃত্তি বিষয়ের একটি অ্যাড অনকোর্সের আয়োজন করা হয়েছিল। ইতিপূর্বে বিভিন্ন অনুষ্ঠানে ছাত্রছাত্রীদের অপরিসীম উৎসাহ দেখে এই পরিকল্পনা করা হয়। আশানুরূপ ১৩২ জন ছাত্রছাত্রী এই বিষয়ে নামনথি ভুক্তকরে। তারা যথেষ্ট উৎসাহ নিয়ে ক্লাস করেছে, অনেক নতুন আঙ্গিক ও নতুন ভাবনা চিন্তা দিয়ে ক্লাসগুলিকে মনোরম আর শিক্ষাগ্রহণের উপযুক্ত করে তুলেছে। কোর্স কোর্সে আর্ডিনেটর হিসাবে তাদের অনেক প্রশ্নও কৌতূহলের পাশাপাশি তাদের ভিতরে যে সুপ্ত প্রতিভা তা একটু একটু করে বিকশিত হতে দেখি। আশা রাখি, ভবিষ্যতেও তারা এই বিষয়ে আরও গভীর শিক্ষার প্রতি আগ্রহী হবে, জীবনে প্রথাগত শিক্ষার পাশাপাশি এই শিক্ষা তাদের নিজের পক্ষে দাঁড়াতে সাহায্য করবে। এই কোর্সের শেষে তারা মৌখিক পরীক্ষার মাধ্যমে উত্তীর্ণ হয়েছে এবং মহাবিদ্যালয়ের পক্ষ থেকে তাদের সাফল্যকে টিফিকেট প্রদান করা হবে। তাদের সর্বাঙ্গীন সাফল্য কামনা করি।

## Curriculum of Microelectronic Technology and CMOS Implementation, 2023-24

### Course Outcome:

Students after successfully completion of the course will be able to:

- Get an overview of the different steps of VLSI Technology
- Learn about different bulk and epitaxial semiconductor growth techniques
- Get an idea of different process sequences in NMOS, PMOS and CMOS fabrications
- Learn about advanced imaging and characterization techniques of nanostructure devices.

**Material preparation:** Bulk semiconductor growth, Vertical and Horizontal Bridgeman techniques, Zone melting, Czochralski growth, Gradient freeze technique, Liquid encapsulated Czochralski growth.

**Epitaxial growth:** VPE, LPE, MOCVD and MBE technique, growth of multiple layered structures. Cleaning, Etching, Growth of insulating thin films on Semiconductors, Thermal Oxidation of Si, Growth kinetics of Silicon dioxide films by LPCVD and PECVD techniques.

**Semiconductor doping:** Thermal diffusion and ion-implantation, Annealing, Fabrication of practical ohmic contacts to semiconductors. Deposition of metal films, poly-silicon and nitride deposition, Thermal and electron beam evaporation sputtering. Stick diagram, chip assembly and packaging techniques.

**Process sequence in CMOS fabrication:** n-well and p-well process, Design rules for CMOS layout, CMOS logic.

**Nanostructure imaging:** Scanning Tunneling Microscopy (STM), Transmission Electron Microscopy (TEM), Scanning Electron Microscopy (SEM), Atomic Force Microscopy (AFM). FESEM, EDX.

## Report on Microelectronic Technology and CMOS Implementation, 2023-24

**Brief report on Add on course:** Microelectronics engineering is a specialized field of study that focuses on the design, fabrication, and application of small-scale electronic components and circuits. It involves the miniaturization of electronic devices and systems, typically at the micro-scale or nano-scale level. The field encompasses a wide range of technologies, including the design and fabrication of integrated circuits (ICs), semiconductor devices, and microsystems. A student having knowledge and expertise in microelectronics engineering can get opportunities in industries such as semiconductor manufacturing, telecommunications, consumer electronics, healthcare, and research and development. However, the field is dynamic, playing a crucial role in the advancement of technology and the development of innovative electronic devices. After completion of this course, students might be benefited if they are devoted to join in the healthcare divisions, telecommunication industries, consumer electronics and also to grow their own start-up companies. During the course, most of the students have enjoyed the classes and they have gone through spontaneous interactive modes followed by positive student feedbacks.

**Report on Applied English Grammar and Comprehension for Competitive Examination, 2022-23**

1. Name of the course: Applied English Grammar and Comprehension for Competitive Examination

2. Department offering this course: English

3. Date of commencement: 15/01/24

4. Name of the Course coordinator: Dulal Sarkar

5. Hours of Learning: 30 Hours

6. Objectives of the course (3-4 bullet points):

- . Different Career Opportunities.
- . Fundamental knowledge regarding Grammar
- . Increase vocabulary
- . Improvement of comprehensive passage.

7. Course outcome (100-150 words):

Applied grammar instruction differs from traditional grammar teaching in that the primary instructional goal is to accelerate language learning by focusing on the form, function, and meaning of foundational grammar skills that are essential for reading comprehension and academic writing. English Grammar and Composition helps aspirants to prepare for various competitive examinations. The book comprises of exercises that not only helps candidates improve their proficiency in English, but also educate them about the proper usage of grammar. In today's competitive world, having a strong vocabulary is crucial for success in various areas of life. Whether it's competitive exams, language proficiency tests, professional communication, or personal growth, a diverse vocabulary plays a significant role in helping you excel.

## Curriculum of Qualitative Research in Geography: Methods of Data Collection & Analysis, 2023-24

1. **Name of the course:** Qualitative Research in Geography: Methods of Data Collection & Analysis
2. **Introduction/Necessity for starting this course:** Data collection, analysis, and interpretation technique is one of the most significant methodological orientations of geographical education and research. As the researcher of anthropocentric spatial science, geographers deal with qualitative methods and techniques. Concerning this, the entitled add-on course is necessary in the teaching-learning process of geography to enhance the students' knowledge on the theoretical aspects of the methods of collection and analysis of data in qualitative research as well as to apply those theoretical knowledge in practical field *i.e.* in the socio-economic field survey and researches.
3. **Specific Objective:** The objectives of the entitled add-on course are to
  - i. Fulfillment of the students' understanding on the theoretical bases of data collection and analysis in qualitative research.
  - ii. Justify the students' orientation towards the field study and anthropocentric research.
  - iii. Build up an integration between theoretical geography and its applied part through classroom teaching-learning process and field visits also.
  - iv. To reveal the holistic approach about the man-environmental relationship.
4. **Target/eligibility:** Geography Honours students
5. **Intake capacity:** All Semester students of Geography
6. **Procedure for teaching /applying the course:** Theory classes (lecture method, use of ICT), Practical class (field study), Comprehensive evaluation (Project report).

## Report on Qualitative Research in Geography: Methods of Data Collection & Analysis, 2023-24

**Department:** Geography

**Course co-ordinator:** Madhumita Sen

**Duration:** 3 months (February, 2024 – May, 2024)

**Date of commencement:** 10.02.2024

**Hours:** 38

**Total students:** 96

### Objectives:

- Fulfillment of the students' understanding on the theoretical bases of data collection and analysis in qualitative research.
- Justify the students' orientation towards the field study and anthropocentric research.
- Build up an integration between theoretical geography and its applied part through classroom teaching-learning process and field visits also.
- To reveal the holistic approach about the man-environmental relationship.

**Outcome:** The course curriculum includes both theory & practical class. Students have learned how to prepare questionnaire for different types of qualitative research, how qualitative data is coded & analysed statistically & how to write report. When to apply non-parametric test, why data validation is necessary was the part of the curriculum. All the students had carried field work in Katwa municipality area for SWOT analysis, place attachment studies &

## Report on Benefit of basic yogasana in our daily life, 2023-24

योगাসন এর একটি অ্যাড অন কোর্স সম্পন্ন হয় 2024 সালে 350 জন ছাত্র ছাত্রী নিয়ে, যা ছিলো 30 ঘন্টার একটি কোর্স। কাটোয়া কলেজ কর্তৃপক্ষ, প্রিন্সিপাল স্যার এবং IQAC coordinator কোর্সটি উদ্বোধন করেন। কোর্সটি চালু হয় মার্চ মাস থেকে এবং আনুষ্ঠানিক ভাবে শেষ হয় 21th জুন যোগ দিবস পালনের মধ্য দিয়ে। সেদিন একটি পরীক্ষা নেওয়া হয় এবং প্রদর্শনীর মাধ্যমে আমরা কোর্স টি সম্পন্ন করি। প্রায় প্রত্যেকেই এই অনুষ্ঠানে অংশগ্রহণ করেন যার উপস্থিতির হার আমি লিপিবদ্ধ করেছি।

## Report on General Awareness and Management: Cardio-Respiratory Disorders, 2023-24

The Add-on course on **General Awareness and Management: Cardiorespiratory Disorders** was organised by the Department of Physiology and IQAC, Katwa College under the Co-ordinatorship of Dr. Anindita Singha Roy, Assistant Professor, Department of Physiology, Katwa College with participation of twenty two (22) registered students. The course was aimed to develop basic and general awareness about cardiorespiratory parameter, electrocardiogram (ECG), cardiorespiratory diseases and their management. Special emphasis was given to develop general idea about blood donation and blood grouping. Learning outcome included gathering of knowledge and hands on training (as far as practicable) on the above mentioned topics as well as on some basic idea of dietary assessment. All the students were performed very well in the evaluation process (viva voce).

- ✓ To improve basic knowledge on cardiorespiratory disease and management
  - ✓ General awareness on blood donation
  - ✓ Importance of blood grouping

## Course outcome

From this Add on course undergraduate students learned some basic anatomy of heart and lungs and about some cardiorespiratory diseases as well as their management.

We all know that physical fitness, proper diet are most important components to maintain individuals' wellbeing. From this course students obtained a brief idea regarding types, importance, assessment of physical fitness, body surface area, body mass index (BMI) etc.

Undergraduate students performed some basic practicals on measurement of Heart Rate, Blood pressure, ECG, obstructive pulmonary disease evaluation and physical fitness assessment. They also got some knowledge about proper diet plan, blood grouping and blood donation.

## Course syllabus:

### Module 1: Cardiorespiratory Fitness and human Health

- Introduction to heart & lung
- Determination of Heart rate and Blood Pressure
- Determination of obstructive pulmonary disease
- Fitness: Definition, Types, Assessment, Importance
- Human Health and Fitness

### Module 2: Calorie calculation & Diet Plan

- Obesity- Brief idea.
- Measurement of BSA, BMI, Waist hip ratio

## Report on Basic knowledge of wildlife photography, 2023-24

1. **Name of the course:** Basic Knowledge of Wild Life Photography
2. **Department offering this course:** Department of Zoology
3. **Date of commencement:** 01/03/2024
4. **Name of the Course coordinator:** Koushik Sarkar and Sulagna Mukherjee
5. **Hours of Learning:** 30 hrs
6. **Objectives of the course :**
  - Establishing a connection between nature and student. through photography
  - Using wildlife photography as a tool for Nature conservation.
  - Documentation of local wildlife and spreading awareness by conducting nature walk
  - Learning photography will generate alternate career options.

### 7. Course outcome :

Upon completing the wildlife photography course, participants will have developed a comprehensive understanding of both the technical and artistic aspects required to capture compelling images of wildlife in their natural habitats. Students will gain proficiency in using advanced camera settings, including aperture, shutter speed, and ISO, tailored to the dynamic and often unpredictable conditions of wildlife environments. They will learn effective techniques for achieving optimal lighting, composition, and focus in varying ecosystems.

Participants will also cultivate an appreciation for ethical wildlife photography, ensuring respect and minimal disturbance to animal behavior and habitats. The course will cover essential field skills, such as understanding animal behavior, and employing camouflage to blend seamlessly into natural surroundings.

The course will emphasize storytelling through imagery, encouraging students to develop a narrative approach to their work, capturing not just the subject but the essence of their interaction with the environment.

By the end of the course, students will be equipped to produce basic wildlife photographs that reflect both technical expertise and a deep respect for the natural world.

### Brief report:

Add-on Course in “Encouraging Private Entrepreneurship: Laboratory to Industry” was conducted by the Dept. of Chemistry under the Coordination of Dr. Goutam Nandi in the 2023-24 academic session. The said add on course was open to the all streams and 56 students joined for the course. Three Assistant Professors (including the coordinator) from the Dept. of Chemistry were the resource persons for this add on course. Everybody involved in this course have enjoyed the newly introduced add on course and it ended with an evaluation of the participants through viva voce. Total duration of the course was ~40hrs.

Evaluation was completed through *viva -voce* at last week of the Add on Course

## Brief Report:

Department of chemistry successfully completed the Add on Course on Encouraging Self Employment: Laboratory to Industry in the academic sessions 2023-24 under the supervision of three faculties of the Department of Chemistry (Dr. Kedar Nath Mitra, Dr. Dinesh Maity and Prof. Biswajit Hansda) and Dr. Dinesh maity coordinated this course. Total forty nine students from all streams in our college including B.Ed Department have participated in this course. The course was of thirty hours duration including both theory and practical classes. The evaluation process was completed through *viva voce* at last week of the program. In this course students are introduced the relationship of chemistry and our daily life. The Add-on course was highly an inevitable class and it would certainly help the students to become a job producer instead of a job seeker.
