## Project Work

SEMESTER- I

VALUE ADDED COURSE

PAPER CODE: CVA 1061 [COURSE NO. 1]

ENVIRONMENTAL SCIENCE/EDUCATION TOTAL

CREDITS: 4

### Learning objectives

- To create awareness and understanding of the environment and its different components
- To get knowledge on different current environmental problems and issues in national and international levels
- To impart knowledge about the management practices of different environmental problems
- To get real life experiences of different environmental resources, ecosystems and environmental degradation

**Unit 1: Basics of Environmental Studies:** (05)  
Definition, Nature, Scope and Importance; Components of environment: Environmental education

**Unit 2: Natural Resources:** Renewable and Nonrenewable Resources (10)  
Nature and natural resources their conservation and associated problems:

- Forest resources: Uses, types and importance, Joint Forest Management & symbiotic relationship between tribal population and forests, Deforestation and its effects
- Water resources: Distribution of water on Earth; Use, overexploitation of surface and ground water; Dams: Benefits and problems; Flood and Drought
- Mineral resources: Mineral resources in India; Use and exploitation, Social impacts of mining
- Food resources: World food problems and food insecurities.
- Energy resources: Renewable and Nonrenewable energy sources; Use of alternate energy sources - Case studies
- Land resources: Land as a resource; Land degradation, landslides, soil erosion, desertification
- Use of resources for sustainable development (Concepts & Goals)

## Unit 3: Ecology and Ecosystems

(08)

- Concept of ecology, Population ecology, Community ecology
- Concept of an ecosystem, different types of ecosystem
- Food chains, food webs and ecological succession
- Energy flow in the ecosystem and energy flow models

## Unit 4: Biodiversity and its conservation

(08)

Biodiversity: Levels of biological diversity

- Values of biodiversity
- Hot-Spots of biodiversity, IUCN Red Data Book, Mega-biodiversity countries
- Threat to biodiversity
- Threatened and endemic species of India

- Conservation of biodiversity (*In-situ* and *Ex-situ*)
- Ecosystem services: Ecological, Economic, Social, Ethical, Aesthetical and Informational values

## Unit 5: Environmental Pollution and Management

(08)

- (a) Nature, Causes, Effects and Control measures of – Air pollution, Water pollution, Soil pollution, Noise pollution
- (b) Solid waste management: Causes, effects and disposal methods; Management of biomedical and municipal solid wastes
- (c) Disaster management: Floods, Earthquake, Droughts, Cyclone and Landslides

## Unit 6: Environmental Policies and Practices

(10) Constitutional

Provisions for protecting environment- Article 48(A), 51A(g)

- Environmental Laws: The Environment (Protection) Act, 1986; The Air (Prevention and Control of Pollution) Act, 1981; The Water (Prevention and Control of Pollution) Act 1974; Forest (Conservation) Act, 1980
- The wildlife Protection Act, 1972
- Climate change, Global warming, ENSO, Acid rain, Ozone layer depletion; Montreal and Kyoto Protocols

## Unit 7: Human Communities and Environment

(06)

- Human population growth; Impact on environment
- Environment and human health: Concept of health and disease; Common communicable and Non-communicable diseases; Public health awareness programmes in India
- Environment movements in India: Chipko Movements, Silent Valley Movement, Narmada Bachao Andolan

- Environmental assets - River/Forest/Grassland/Hill/Mountain etc.
- Environmental pollution - Urban/Rural/Industrial/Agricultural
- Study of common Plants/Insect/Birds/Wildlife etc.
- Study of simple ecosystems: Pond/River/Hillslope etc.

## Learning outcomes

- Understanding on environment and its importance
- Knowledge on different natural resources, causes of depletion and its sustainable uses
- Understanding the significance of biodiversity and its conservation
- Ideas on provisions of Indian Constitution for environmental protection
- Understanding the interrelationship among human population growth, environment and human health
- Knowledge of on-field experience on environmental issues through project work

- Unit 3: Legumes**  
Origin, morphology and uses of Chick pea, Pigeon pea and fodder legumes. Importance to man and ecosystem. (6 lectures)
- Unit 4: Sources of sugars and starches**  
Morphology and processing of sugarcane, products and by-products of sugarcane industry. Potato-morphology, propagation & uses. (4 lectures)
- Unit 5: Spices** (6 lectures)  
Listing of important spices, their family and part used. Economic importance with special reference to fennel, saffron, clove and black pepper
- Unit 6: Beverages** (4 lectures)  
Tea, Coffee (morphology, processing & uses)
- Unit 7: Sources of oils and fats**  
General description, classification, extraction, their uses and health implications groundnut, coconut, linseed, soybean, mustard and coconut (Botanical name, family & uses). Essential Oils: General account, extraction methods, comparison with fatty oils & their uses. (10 lectures)
- Unit 8: Natural Rubber** (3 lectures)  
Para-rubber: tapping, processing and uses.
- Unit 9: Drug-yielding plants** (8 lectures)  
Therapeutic and habit-forming drugs with special reference to Cinchona, Digitalis, Papaver and Cannabis; Tobacco (Morphology, processing, uses and health hazards).
- Unit 10: Timber plants** (3 lectures)

## Practical

- 1. Cereals:** Rice (habit sketch, study of paddy and grain, starch grains, micro-chemical tests).
  - 2. Legumes:** Soybean, Groundnut, (habit, fruit, seed structure, micro-chemical tests).
  - 3. Sources of sugars and starches:** Sugarcane (habit sketch; cane juice- micro-chemical tests), Potato (habit sketch, tuber morphology, T.S. tuber to show localization of starch grains, w.m. starch grains, micro-chemical tests).
  - 4. Spices:** Black pepper, Fennel and Clove (Macromorphology).
  - 5. Beverages:** Tea (plant specimen, tea leaves), Coffee (plant specimen, beans).
  - 6. Sources of oils and fats:** Coconut- T.S. nut (photograph), Mustard-plant specimen, seeds; tests for fats in crushed seeds.
  - 7. Essential oil-yielding plants:** Habit sketch of *Rosa* and *Eucalyptus*- specimens/photographs.
  - 8. Rubber:** specimen, photograph/model of tapping, samples of rubber products.
  - 9. Drug-yielding plants:** Organoleptic study of specimens of *Andrographis* and *Catharanthus*.
  - 10. Woods:** *Tectona*, *Pinnus*. Specimen, Section of young stem.
  - 11. Fiber-yielding plants:** Jute (specimen, transverse section of stem, test for lignin on transverse section of stem and fiber)
- N.B. - Students are required to submit a **PROJECT COPY** containing photographs of all above mentioned "Economically Important" plants with few identifying characters, economic use and local names.**

## DEPARTMENT OF BOTANY

### Syllabus

Semester III

Core Course 5 : Plant Ecology and Phytogeography

(Theory-4, Practical-2) Credits: 6

#### THEORY

Lectures: 60

##### Unit 1: Introduction

(6 lectures)

Basic concepts; Levels of organization. Inter-relationships between the living world and the environment, the components and dynamism, homeostasis.

##### Unit 2: Soil

(6 lectures)

Importance; Origin; Formation; Composition; Physical; Chemical and Biological components.

##### Unit 3: Water

(4 lectures)

Importance: States of water in the environment; Atmospheric moisture; Precipitation types (rain, fog, snow, hail, dew); Hydrological Cycle; Water in soil.

##### Unit 4: Light, temperature, wind and fire

(4 lectures)

Climatic variables; adaptations of plants to their variation.

##### Unit 5: Ecosystem

Structure; Process; Trophic organization, basic source of energy, autotrophy, heterotrophy; symbiosis, commensalism, parasitism; food chains and webs; ecological pyramids; biomass, standing crop.

Unit 6: Population ecology (4 lectures)

Characteristics and Dynamics .Ecological Speciation

Unit 7: Plant communities (8 lectures)

Concept of ecological amplitude; Habitat and niche; Characters: analytical and synthetic; Ecotone and edge effect; Dynamics: succession -processes, types; climax concepts.

Unit 8: Functional aspects of ecosystem (8 lectures)

Principles and models of energy flow; Production and productivity; Ecological Biogeochemical cycles; Cycling of Carbon, Nitrogen and Phosphorus.

Unit 9: Phytogeography (12 lectures)

Principles; Continental drift; Theory of tolerance; Endemism; Characteristic features of major terrestrial biomes (one each from tropical, temperate & tundra); Phytogeographical division of India [Phytogeographical classification of India (D. Chatterjee- 1962)]; Vegetation Characteristics of Eastern Himalaya and Sunderbans.

## Practical

1. Study of instruments used to measure microclimatic variables: Soil thermometer, maximum and minimum thermometer, anemometer, psychrometer/hygrometer, rain gauge and lux meter.

2. Determination of pH of various soil and water samples (pH meter, universal indicator and pH paper)

3. Analysis for carbonates, chlorides, nitrates, sulphates, organic matter and base deficiency from two soil samples by rapid field tests.
4. Determination of organic matter of different soil samples by Walkley & Black rapid titration method.
5. Determination of dissolved oxygen of water samples from polluted and unpolluted sources.
6. Ecological adaptations of some species: Ipomoea aquatica stem, Phyllode of Acacia auriculiformis, Nerium leaf and Vanda root
7. Determination of minimal quadrat size for the study of herbaceous vegetation in the college campus, by species area curve method (species to be listed).
- 8. Field visit to familiarize students with ecology of different sites.**

  - Evaluation of Field work: 5
  - Viva-Voce 5 Marks
1. Students will prepare a field report based on primary data collected from field survey and secondary data collected from different sources for either a rural area (mouza) or an urban area (municipal ward) based on cadastral or municipal maps to study specific problems
  2. The report should be typed in MS-Word in English language on A4 size paper in candidate's own words within 2500 words. The total number of pages in the Field Report should not exceed 25 pages including texts, figures, tables, photographs, maps, references (APA) and appendices
  3. A copy of the bound report, duly signed by the concerned teacher, should be submitted
  4. Preparation of maps (hand-drawn) with suitable scale and latitude and longitude
  5. Preparation of charts/graphs in MS-Excel and duly labelled
  6. The report should be typed in MS-Word. The font size is fixed at 12 in Times New Roman and the line spacing 1.5
